

UV Series Wall Mount UV-05/10/15/20 Ozone Generators

To Enjoy Green Technologies!

OVERALL

We took our most popular very ultraviolet (VUV) radiation type ozone cells & digital electronic ballasts that make up the perfect UV series wall mount ozone generators. The UV-05/10/15/20 ozone generators are designed in properly size and as simple as possible.

The UV-05, 10, 15 & 20 are wall-mountable, air-cooled, very ultraviolet (VUV) radiation type ozone generators specifically designed for residential or light commercial applications. The system incorporates anodized aluminum VUV lamp housing(s), VUV high intensity light source(s), digital electronic ballast(s), function indicators, white epoxy powder coated mild steel enclosure with wall-mount holes and the optional feed gas flow meter. Operating on feed gas only in ambient air, these units are capable of producing ozone in 0.5g/hr, 1.0g/hr, 1.5g/hr & 2.0g/hr.

DESIGN FEATURES:

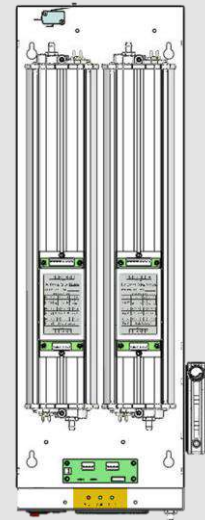

- Very UV (VUV) radiation
- High intensity VUV lamps
- Digital electronic ballasts,
- Aluminum reaction housings
- UV lamps failure indicating panel
- Feed only by Ambient Air
- Flow meter Optional
- Positive or Vacuum Working
- Air cold, Wall Mountable

APPLICATIONS:

- Water Storage Tank
- Retail Water Stores
- Swimming Pool & SPA
- Fruits & vegetables rinse
- Aquarium & Aqua-Zoo
- Ice Machine
- Rainwater Harvesting
- Air Treatment

SPECIFICATION	UV-05	UV-10	UV-15	UV-20
Ozone Output*	0.5g/hr	1.0g/hr	1.5g/hr	2.0g/hr
Ozone Output Flow	1-10L/min	1-10L/min	1-10L/min	1-10L/min
Ozone Output Pressure	0.5bar/-6inHg (Max)	0.5bar/-6inHg (Max)	0.5bar/-6inHg (Max)	0.5bar/-6inHg (Max)
VUV Reaction housing Qty.	1	1	2	2
VUV Lamps Qty.	1	2	3	4
Power Requirement	120/240V 60/50HZ 35W	120/240V 60/50HZ 65W	120/240V 60/50HZ 100W	120/240V 60/50HZ 125W
Feed Gas Flowmeter	Optional	Optional	Optional	Optional

Note: " * " By feeding ambient air.
